Executive Summary CY 2013

The Kansas Racing and Gaming Commission (KRGCC) is the agency responsible for the regulation of expanded gaming and pari-mutuel wagering in Kansas. The mission of the KRGCC is to protect the integrity of the gaming and racing industries through enforcement of Kansas laws and regulations. The KRGCC is committed to preserving the public's trust and confidence in the Kansas gaming experience. The Kansas Expanded Lottery Act (KELA) and the Kansas Pari-mutuel Racing Act are the enabling legislation for expanded gaming and pari-mutuel wagering, respectively. Currently, the KRGCC's primary responsibilities are to ensure compliance with gaming laws and regulations, administer the responsible gambling Voluntary Exclusion Program, and assist in helping to protect the public from illegal gambling operations. The KRGCC administers two programs: 1) the Expanded Gaming Regulation Program that regulates lottery gaming facility managers that operate state-owned games and the vendors of gaming equipment and supplies utilized by the lottery gaming facility managers; and 2) the Racing Operations Program that regulates the greyhound and horse racing industries, which is currently inactive. The Tribal Gaming Regulation Program that oversees the tribal casino industry in the state is administered solely by the State Gaming Agency, which reports separately.

The Expanded Gaming Regulation Program is administered to ensure that lottery and racetrack gaming facility managers and related vendors conduct state-owned gaming with the highest level of integrity by complying with the rules and regulations promulgated by the KRGCC under KELA, as well as other applicable state and federal laws. Under KELA, the Kansas Lottery is authorized to own and operate casino-style games in four specific geographic zones, and to own and operate electronic gaming machines at pari-mutuel racetracks. The northeast gaming zone consists of Wyandotte County where the Hollywood Casino at the Kansas Speedway opened in February 2012; the south-central gaming zone consists of Sedgwick and Sumner counties where the Kansas Star Casino opened in December 2011; the southwest gaming zone consists of Ford County where the Boot Hill Casino and Resort opened in December 2009; and the southeast gaming zone consists of Crawford and Cherokee counties, which is currently available but where no lottery gaming facility manager has been approved.

The primary goals of the Racing Operations Program are to maintain the integrity of pari-mutuel wagering in Kansas and to protect the health, safety, and welfare of racing animals. Licensed racetrack activities in Kansas ceased operations in 2009. Since that time all pari-mutuel licenses have expired and no renewal applications have been filed. The KRGCC is governed by a Commission which consists of five members appointed by the Governor and confirmed by the Senate for four-year terms. The KRGCC meets monthly to address regulatory matters primarily related to casino-style gaming in Kansas. The Commission currently consists of four members as follows:

Tim Shultz (Chair) from Topeka, Kansas is a partner in the Topeka law firm of Parker & Hay, LLP. During his career, he has practiced law in Dodge City, Manhattan and Topeka. His current practice includes business and corporate law, banking law, transactional law, insurance and professional liability defense litigation in the areas of lender liability, financial institution bonds, professional liability, UCC negotiable instruments law, employment and civil rights law, construction law, and general insurance defense and litigation. Mr. Shultz is admitted to practice in the state courts of Kansas and Nebraska, U.S. District Courts for the Districts of Kansas, Nebraska, the Eastern and Western Districts of Arkansas, the Western District of Missouri and the Tenth Circuit Court of Appeals. He has been admitted on a case-by-case basis to represent clients in numerous other states, including Illinois, Missouri, Mississippi, Texas, Colorado, Wyoming, and Minnesota, among others. Originally from Dodge City, Mr. Shultz graduated from Washburn University with a Bachelor of Arts Degree including a double major in History and Political Science and a minor in English Literature. While at Washburn, he was inducted into the Honorary History Society and was named an All-American Scholar. He received his Juris Doctor degree from Washburn University School of Law in 1993 and was admitted to the Kansas Bar the same year. After graduation, he practiced law in Dodge City, Manhattan and Topeka. He is a member of the Topeka Bar Association, Kansas Bar Association, American Bar Association, the Kansas Association of Defense Counsel and the Nebraska State Bar Association. Mr. Shultz was appointed to the Kansas Racing and Gaming Commission in March 2011 by Governor Sam Brownback (current term expires January 15, 2016).

Eileen King (Secretary) from Manhattan, Kansas is currently serving her 8th term as Riley County Treasurer. She received her Bachelors' ('80, cum laude) and Masters' ('82) degrees in Accounting from Kansas State University. While attending Graduate school, she taught Accounting at K-State. Upon graduation, she was employed by The McCall Pattern Company as their International Accountant. In 1984 she ran for Riley County Treasurer and has held that position since 1985. She is a native Kansan, born and raised in Riley County. After her husband's graduation from Kansas State University, they lived in 5 different states in 8 years before returning to Manhattan in 1977. Eileen is active in the State and National County Treasurers' Associations. She has served as President of the State County Treasurer's Association in 1997, 1998 and 2007. In 2013, she served as the President of the National Association of County Collectors, Treasurers and Finance Officers. She has been a mentor to many County Treasurers and received the Outstanding Kansas County Treasurer's Award in 2000. In 2011, she was awarded the National Outstanding Treasurer Award for her service to her Community, County, State and Nation. She has achieved the highest level of certifications available at the State and National level provided by University of Tennessee, University of Missouri at St Louis and Fort Hays State. She has served on numerous committees for the County, State and National organizations. Commissioner King was appointed to the Kansas Racing and Gaming Commission in June 2012 by Governor Sam Brownback. Eileen resides in Manhattan with her husband, Doug. They have two children, Sam and Sheryl and three grandchildren, Alex, Matt and Ryan. (current term expires January 15, 2016).

Dennis McKinney (Vice Chairman) from Greensburg, Kansas, is a former State Treasurer and former State Representative to the Kansas House, is a farmer and stockman in Kiowa and Comanche counties. In May 1992, Mr. McKinney was appointed to the Kansas House of Representatives, District 116, in May 1992 and was re-elected for nine terms. The 116th District covers a large portion of south central Kansas. In the House, Dennis served as minority leader from January 2003 until December 2008. In November 2008, Governor Kathleen Sebelius appointed Mr. McKinney as Kansas State Treasurer, a position which he held until January 2011. Prior to serving in the Kansas Legislature, He served as a Kiowa County Commissioner from January 1989 through May 1992. Mr. McKinney was appointed to the Kansas Racing and Gaming Commission in March 2011 by Governor Sam Brownback. Dennis resides in Greensburg with his wife Jean. Jean and Dennis have two daughters: Kelly, an accountant in Ashland, Kansas and Lindy, a college student. (current term expires January 15, 2015).

David Moses from Wichita, Kansas, has been practicing law in Kansas since 1979. He is also admitted to practice before the U.S. Court of Appeals, 10th Circuit and U.S. Tax Court. A graduate of Washburn University School of Law in 1979, David serves as an Adjunct Assistant Professor at Wichita State University and is a frequent speaker at CLE programs on ethics, education and criminal law subjects. Prior to joining Case, Moses, Zimmerman & Martin, P.A., he served as Sedgwick County Assistant District Attorney from 1979-1984 and Sedgwick County District Attorney Chief Administrative Attorney from 1984-1990. Immediately before becoming a member of the firm, he was a partner at the Wichita law firm of Curfman, Harris, Rose & Smith, L.L.P. He served on the Board of Directors of the National Association of Consumer Agency Administrators from 1987-1990. He is an active member of the Wichita Bar Association where he was a member of the Board of Governors and serves on the Ethics, Unauthorized Practices, Criminal Law and Technology Committees. He is a member of the Kansas Bar Association where he served as chair of the Continuing Legal Education Committee for 3 years, is a member of the Ethics Committee and is a member of the Criminal Law Section, as well as past president of the section. He is a member of the American Bar Association as well as the American Association for Justice. David concentrates his practice in the areas of criminal law, business and consumer law, personal injury law, litigation, insurance defense, education and school law. Mr. Moses was appointed to the Kansas Racing and Gaming Commission in November 2012 by Governor Sam Brownback. (current term expires January 15, 2016).

Historical Overview

Expanded Gaming

In 2007, the Kansas Legislature passed the Kansas Expanded Lottery Act, establishing four commercial gaming zones in Kansas. The act also authorized the Kansas Lottery to negotiate with pari-mutuel facility operators for the placement of electronic gaming machines at racetracks in the gaming zones. The KRGC is responsible for regulating the operation of lottery and racetrack gaming facilities in Kansas under KELA.

The Lottery Gaming Facility Review Board (LGFRB) was created by KELA to review the applications forwarded from the Kansas Lottery to determine the “best possible contract” in each of the four gaming zones. Once the LGFRB awarded a contract to an operator, the KRGC conducted a background investigation on the selected operator to determine the eligibility of that operator to engage in gaming activities based upon the high standards established by KELA.

Between December 2007 and December 2010, the LGFRB held 39 days of public meetings and evaluated 13 facility management contract proposals for the four gaming zones established by KELA.

The LGFRB selected Butler National Service Corporation (BNSC), a wholly-owned subsidiary of Butler National Corporation, as the operator for the southwest gaming zone where BHCMC, LLC, a joint venture between BNSC and BHC Investment Company, L.C., operate the Boot Hill Casino and Resort in Dodge City, Kansas; Peninsula Gaming, LLC, which was acquired by Boyd Gaming Corporation in late 2012, as the operator for the south-central gaming zone where Kansas Star Casino, LLC, a wholly owned entity of Peninsula Gaming, LLC, operates the Kansas Star Casino in Mulvane, Kansas; and Kansas Entertainment, LLC, a joint venture between the International Speedway Corporation and Penn National Gaming, Inc., as the operator in the northeast gaming zone where it operates the Hollywood Casino at the Kansas Speedway in Kansas City, Kansas. The application for a facility in the southeast gaming zone was withdrawn. The LGFRB was

disbanded in 2011. If an application by a lottery gaming facility operator for the southeast gaming zone is approved by the Kansas Lottery, the LGFRB will be reconstituted.

Casino Regulation

KELA requires that the KRGC regulate state-owned and operated casino-style games at lottery and racetrack gaming facilities.

Boot Hill Casino and Resort in Dodge City, Kansas

In December 2009, the Boot Hill Casino & Resort began operations in Dodge City, Kansas. Boot Hill Casino completed expansion activities in August 2012 and currently has 742 electronic gaming machines, 18 table games and a poker room. The United Wireless Arena, a 6,000 seat arena and 10,000 sq. ft. convention center funded with local funds, opened in February 2011. The arena, although not owned or operated by Boot Hill Casino, is located adjacent to the gaming facility. A hotel that is adjacent to the Boot Hill Casino facility is part of the lottery gaming enterprise and opened to the public March 15, 2012.

Kansas Star Casino in Mulvane, Kansas

The Kansas Star Casino in Mulvane began operations December 20, 2011 with limited hours in the entertainment arena while construction of the main casino facility continued. The arena casino began 24/7 operations in January 2012. In December 2012, Kansas Star Casino opened its main casino facility and currently offers 1,852 electronic gaming machines, 45 table games and a poker room along with five restaurants. Kansas Star Casino also opened a connecting hotel with 150 deluxe rooms in October of 2012. The arena was converted to allow for various entertainment including rodeos, concerts and other attractions following the opening of the main casino facility. The final phase of the planned development is expected to be completed in 2015 and include an additional 150 hotel rooms and a convention center. The equestrian amenities are expected to also be completed in 2015.

Hollywood Casino at the Kansas Speedway, Kansas City, Kansas

The Hollywood Casino at the Kansas Speedway in Kansas City opened in February 2012. The Hollywood Casino currently offers 2,000 electronic gaming machines, 52 table games and a poker room along with five restaurants.

Pari-Mutuel Racing

In 1986, Kansas voters approved an amendment to the Kansas Constitution authorizing the Kansas Legislature to license, regulate, and tax pari-mutuel wagering. In 1987, the

Kansas Legislature enacted the Kansas Parimutuel Racing Act. The provisions of this act apply to horse and greyhound racing. Racing conducted under the pari-mutuel system of wagering began in 1988 and continued until 2009 when the last county fair racing meet occurred at Anthony Downs. Since 2009 no legalized pari-mutuel wagering has occurred in Kansas.

In September 2008, the KRGC issued a notice of violation to each of the racetrack operators and non-profit organizations that they had failed to conduct the required number of live horse and/or greyhound races to maintain their respective licenses. Each of these notices required the licensee to cure the violation by a date certain in order to maintain their license or the license would be subject to revocation. In December 2008, the KRGC issued an Administrative Order extending the deadline 30 days after the Kansas legislative session adjournment sine die. The deadline was extended twice in 2009 to expire 30 days following the final adjournment of the 2010 Kansas legislative session. Each extension by the KRGC was an effort to provide additional time for legislative changes making horse and greyhound racing more attractive to participants and encouraging the continuation of pari-mutuel wagering. Legislative changes that were attempted failed to pass. In June 2010, the last of the extended deadlines to cure the failure to conduct the agreed upon number live horse or greyhound races expired and the licenses of all three racetracks and all three non-profit organizations were revoked.

KRGC Key Programs and Operational Divisions

The day-to-day operations of the agency are administered by an executive director and staff. Governor Brownback appointed Richard Petersen-Klein Executive Director of the Kansas Racing and Gaming Commission in April 2011.

Mr. Petersen-Klein is a certified public accountant and attorney with more than 30 years of financial and accounting experience, including 20 years in commercial banking. As a commercial banker he developed a working knowledge of the gaming industry in Arizona, Nevada and New Jersey. His experience included the management of the banking relationship of a casino operator that owned and operated four casinos in Nevada and New Jersey.

Mr. Petersen-Klein holds a bachelor's degree in Finance from Michigan State University. He earned a Masters of Business Administration degree from Arizona State University in 1986. He received his Juris Doctorate with honors in 2004 from Washburn University School of Law. Prior to being appointed to the KRGC he worked as an attorney with Fisher, Patterson, Saylor & Smith, LLP in the Topeka area.

Responsible Gambling Program

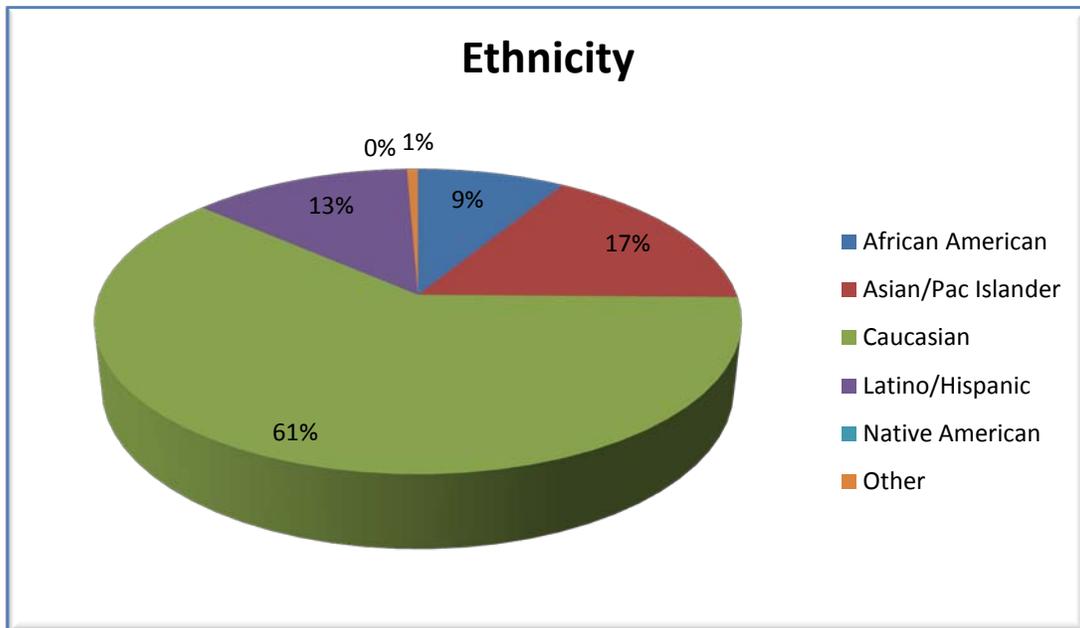

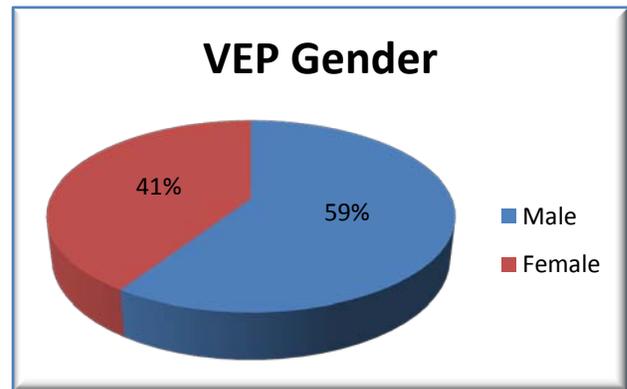

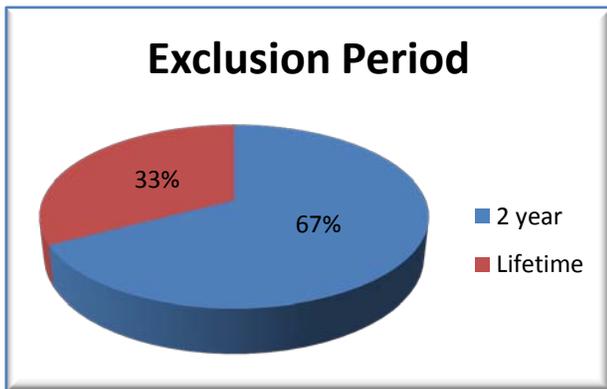

The Responsible Gambling Program is one of the key programs administered by the KRGC. The primary purpose of the Responsible Gambling Program is to monitor compliance with the responsible gambling plans for each of the lottery gaming facility managers. The responsible gambling plan for each facility manager is intended to ensure that the employees of the facility managers are properly trained to recognize the danger signs related to problem gambling behavior and take the appropriate action to help individuals that exhibit those danger signs. Boot Hill Casino and Resort, the Kansas Star Casino, and the Hollywood Casino at Kansas Speedway all have responsible gambling plans that are approved by the KRGC. KRGC personnel monitor the responsible gambling training programs for casino employees to determine the effectiveness of that training. In addition, KRGC personnel review signage, brochures, advertisements and other promotional materials disseminated to casino patrons and the general public to ensure that problem gambling disclosures include information for accessing treatment services.

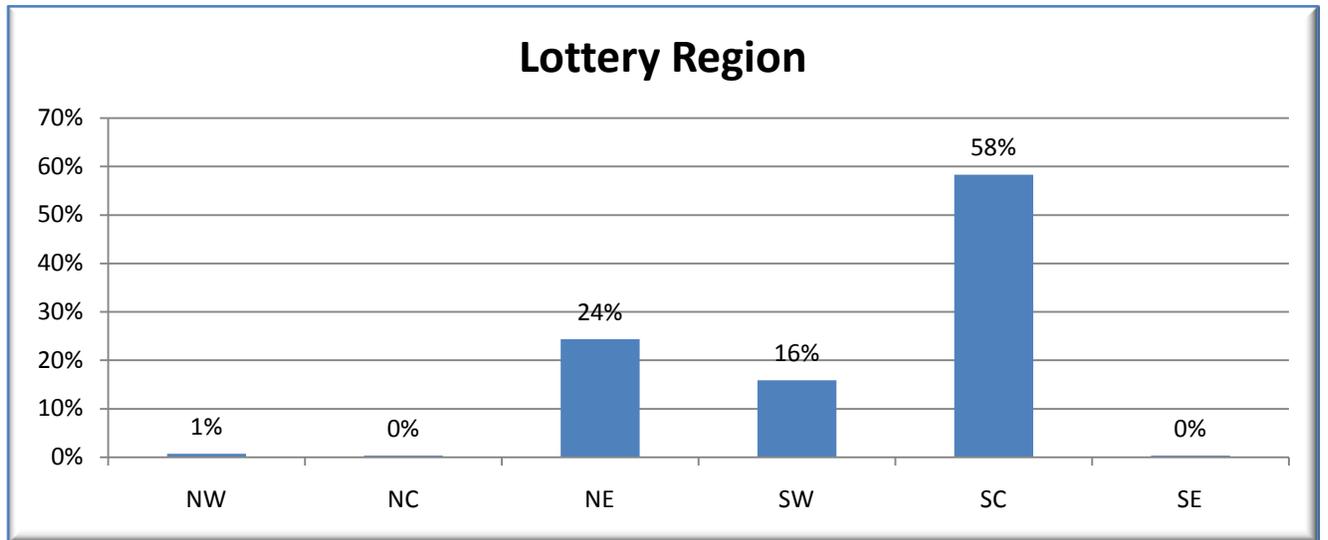

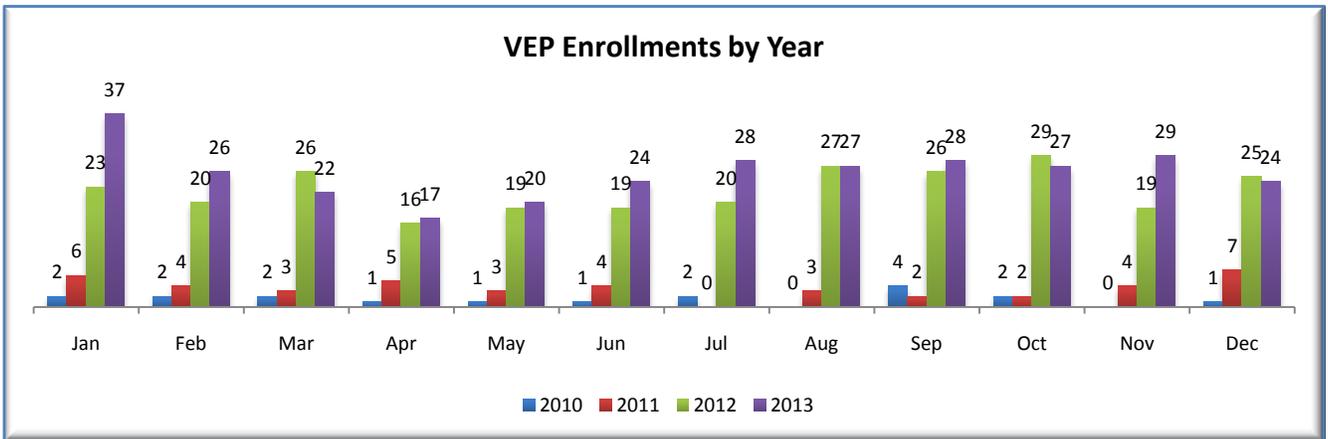

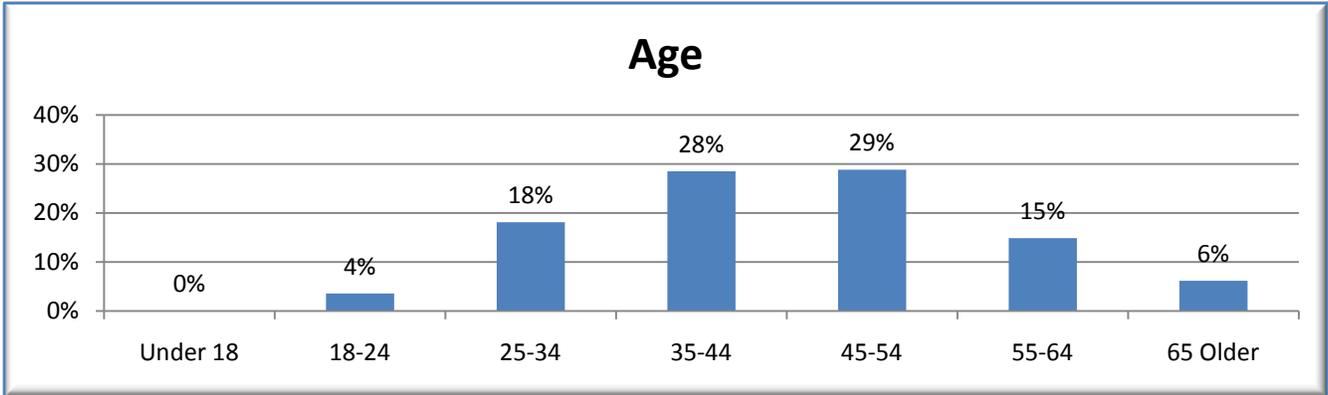

The KRGC administers the Voluntary Exclusion Program for problem gamblers. The Voluntary Exclusion Program provides individuals that believe they may need or want to abstain from gambling a method to assist them by voluntarily agreeing to refrain from entering the KRGC regulated gaming facilities. A person may voluntarily exclude for a period of two years or a lifetime. Those who exclude for a period of two years must apply to the KRGC for removal from the self-exclusion list. Only after meeting with a certified problem gambling counselor will the KRGC remove an individual from the Voluntary Exclusion Program. Persons who voluntarily exclude for a lifetime agree to never enter a KRGC regulated gaming facility. It is the responsibility of the self excluded person to seek treatment and refrain from visiting KRGC regulated gaming facilities.

The KRGC participates in the Kansas Responsible Gambling Alliance (Alliance). In addition to the KRGC, the Alliance is currently comprised of the Kansas Department for Aging and Disability Services, the Kansas Coalition on Problem Gambling and the Kansas Department of Corrections, as well as a treatment provider representative from each of the active gaming zones (i.e. Ford, Sumner and Wyandotte counties), and a representative from each of the lottery gaming facility managers. The Alliance was formed in 2008 to provide helpful information and support for Kansans experiencing the harmful effects of problem gambling behaviors. The Alliance maintains the Kansas problem gambling website, www.ksgamblinghelp.com, to provide online resources for individuals experiencing the harmful effects of problem gambling behaviors and to inform the general public about problem gambling. In addition to the website, the Kansas Problem Gambling Helpline (800-522-4700) information is included in promotional materials disseminated to the general public.

Voluntary Exclusion Program

The following graphs depict the data collection for CY 2013.

Legal Division

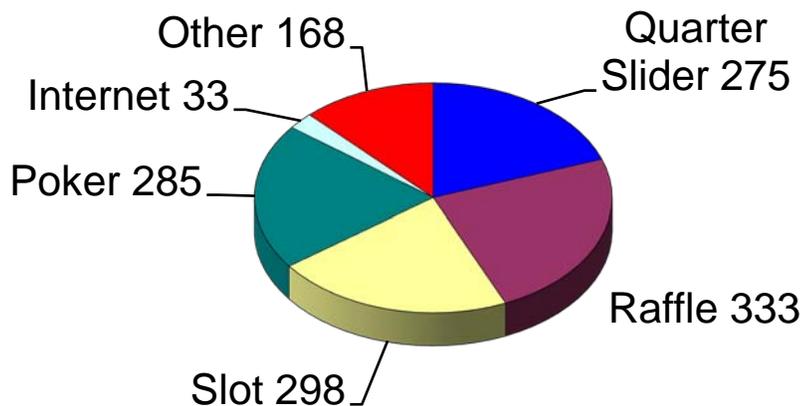

The KRGC Legal Division includes a general counsel, staff attorney, and legal assistant. Legal Division responsibilities can generally be divided into three areas: administrative, civil and criminal. KRGC attorneys create and amend regulations as needed, prepare agency action notices related to licensing decisions and regulatory violations for facility managers, vendors and their employees; prepare agency action notices related to violations by voluntarily and involuntarily excluded persons; process paperwork and reports related to voluntarily excluded persons; represent the agency at administrative hearings, research legal and agency issues, fulfill requests for information under the Kansas Open Records Act and provide legal advice to commissioners and staff. The KRGC's attorneys also represent the agency in civil litigation, review and negotiate contracts, and advise executive staff on employment law matters. Although there is presently no licensed horse or greyhound racing in Kansas, the legal staff continues to address racing-related issues and inquiries, including reviewing and commenting on proposed legislative bills, and the administration of the Kansas-bred program that has continued at the request of the racehorse-breeding community.

The KRGC employs a staff of 40 law enforcement agents and investigators located in Topeka, Kansas, and at the three lottery gaming facilities in Dodge City, Mulvane and Kansas City. The KRGC's attorneys advise the agents on licensing matters as well as on criminal issues and activities that arise at gaming facilities, including theft, criminal trespass, disorderly conduct, underage gambling and drinking, prostitution and unlawful wagering.

The Legal Division also administers the Illegal Gambling Program. Beginning in 2007 with the passage of KELA, the KRGC became the primary coordinator for state-level illegal gambling complaints. Through year-end 2013, the KRGC received 1,393 documented illegal gambling complaints and inquiries from the public, as well as many more inquiries from law enforcement agencies, government attorneys, defense attorneys, and media outlets throughout the state wanting more information on gambling crimes. The KRGC's attorneys strive to educate the public and law enforcement about illegal gambling. Complaints from the public concern illegal slot machines and other gambling devices at bars, restaurants and fraternal organizations, illegal poker games and tournaments, and other illegal lotteries, including illegal bingo games and raffles, which are referred to the charitable bingo coordinator at the Department of Revenue. Inquiries from the public primarily involve calls from citizens wanting to know if raffles and other fundraising activities are legal, and from commercial enterprises wanting to conduct poker tournaments for profit. The KRGC does not have authority to prosecute illegal gambling crimes. Thus, KRGC attorneys deal with illegal gambling devices through civil seizure and

forfeiture proceedings and by coordinating its efforts with local law enforcement and city, county and district attorneys throughout the State who want to prosecute gambling crimes. The KRGC seized two-hundred-fifty-one (251) illegal gambling devices during calendar year 2013, of which twenty-nine (29) devices were destroyed.

Illegal Gambling inquiries Complaints from 2007 to 2013

The above chart does not reflect calls and activity related to the following:

- Constituents who receive answers from our Illegal Gambling Frequently Asked Questions web page, located here: <http://www.krgc.ks.gov/index.php/racing-gaming-law/illegal-gambling/faq-s>.
- Calls made directly to KRGC agents by other law enforcement officers around the state.
- Time spent by agents and legal counsel to assist in active local investigations and prosecutions.
- Time spent prosecuting illegal gambling crimes at the request of county attorneys.
- Educational meetings between legal counsel and county and district attorneys to discuss legal aspects of illegal gambling and the services that KRGC can provide.
- Inquiries from the media.
- Time spent pursuing seizures and forfeitures of illegal gambling devices.

Security and Licensing Division

Most of the Security and Licensing Division's personnel are vested with the power and authority of law enforcement officers in the execution of the duties performed for the KRGC under the provisions of KELA and the Parimutuel Racing Act. Currently, the division's goals are:

- to ensure the integrity of gaming in Kansas;
- to ensure gaming sites are a safe entertainment venue for patrons and employees;
- to be proactive and responsive to gaming laws and regulations; and
- to protect the interests of the public and the State as they relate to gaming.

Security and Licensing personnel work toward these goals by monitoring activities at the lottery gaming facilities, and investigating violations of the law and KRGC regulations. They serve as on-site regulatory staff for the KRGC acting as support to lottery gaming facility managers' security personnel and as a liaison between lottery gaming facility managers and local law enforcement authorities.

The Security and Licensing Division conducts background investigations of lottery gaming facility management companies and their employees, lottery gaming facility suppliers and vendors and certain of their employees, as well as KRGC employees. Background investigations are conducted to protect the public interest by ensuring that only businesses and individuals exhibiting honesty and good character are eligible to engage in gaming operations in Kansas.

Information Technology and Electronic Security Division

The Information Technology and Electronic Security (ITES) Division provides IT support for all KRGC locations, electronic certification of electronic gaming machines (EGMs) and information system security audits.

In 2013, the ITES Division continued the maintenance and improvement of the KRGC's licensing and regulatory system. The system is a comprehensive licensing and regulatory system that provides:

- license processing, including identification card issuance;
- electronic fingerprint processing;
- electronic document storage and management; and
- electronic incident reporting and security logs.

In addition, the ITES Division is responsible for maintaining the IRIS system, which is the inventory tracking system for EGMs and EGM software located at the three lottery gaming facilities. This system is used by the KRGC to provide accurate, real-time tracking of all EGMs, EGM components and any associated issues. The IRIS system is in the process of enhancement to improve the quality and effectiveness of the KRGC's gaming equipment certification and audit processes.

The ITES Division monitors EGMs for compliance with K.S.A. 74-8749(a), which requires that an EGM have an actual payout percentage of at least 87%. EGMs with an actual payout percentage below 87% after placement on the gaming floor for 180 days are not allowed to be converted or removed until a math analysis of the actual payout percentage indicates a payout percentage satisfying the statutorily requirement minimum return to the public.

Table Games Tested and Approved	9	3

Administration, Finance and Audit Division

The Administration, Finance and Audit Division manages the KRGC's audit program for the lottery gaming facility managers and provides general administrative and finance support for the KRGC. The audit program ensures that lottery gaming facility managers develop and implement KRGC approved internal control plans for the protection of state-owned assets and patrons. The audit staff reviews all internal control amendments for Commission approval to ensure that requested amendments are consistent with required levels of protection and best practices while allowing for improved operations and changing conditions. In addition, audit staff performs reviews of internal audit operations, and financial and other statistical reports submitted to the KRGC by lottery gaming facility managers.

AUDIT	CY 2012	CY 2013

State Gaming Agency

The State Gaming Agency’s budget is included with the Kansas Racing and Gaming Commission’s budget. By law the budget of the State Gaming Agency, the number and qualifications of its employees, and its expenditures for dispute resolution pursuant to a tribal-state gaming compact shall be subject to approval by the Kansas Racing and Gaming Commission. All other management functions of the State Gaming Agency are administered by its executive director and are independent of the Kansas Racing and Gaming Commission. The State Gaming Agency’s mission is to uphold the integrity of Indian gaming operations in Kansas by enforcing the tribal-state compacts and the Tribal Gaming Oversight Act. Four tribes continue to operate casinos in Kansas pursuant to tribal-state gaming compacts, and annual assessments from those tribes finance the agency’s operations. The agency performs background investigations necessary prior to licensing for casino employees, management contractors, manufacturers and distributors for each tribal casino. In addition, the agency conducts inspections and monitors activity for compliance with not only the tribal-state gaming compacts but also applicable state and federal laws.

PERFORMANCE MEASURES	FY 2013
Individual employee background investigations	484
Manufacturer / distributor background investigations	36
Criminal investigations	7
Compact compliance investigations	7
Compliance inspections conducted at gaming facilities	1067
Individual EGD (electronic gaming device) inspections	373
