KANSAS RACING AND GAMING COMMISSION APPROVES FINAL CERTIFICATION FOR KANSAS STAR CASINO

Kansas Racing and Gaming Commission Executive Director Richard Petersen-Klein announced today that the Kansas Star Casino in Mulvane is certified to open to the public.

“Kansas Racing and Gaming Commission staff observed the Kansas Star Casino operations during a live play controlled demonstration held Friday, December 16, 2011,” Petersen-Klein said. “Our staff has worked diligently with Kansas Star Casino staff over several months to establish and approve the internal control procedures necessary to achieve regulatory compliance and ensure the highest level of gaming integrity in Kansas,” Petersen-Klein added. “The Kansas Star Casino’s staff and systems demonstrated a level of proficiency sufficient to satisfy regulatory compliance and ensure gaming integrity.”

Enforcement agents from the Kansas Racing and Gaming Commission are on site at all times. The successful completion of the controlled demonstration and final certification allows the Kansas Star Casino to move forward with announced plans to open to the public on Monday, December 26, 2011.
